

## **Sergio Pininfarina honoured by the Polytechnic**

On April 11 Sergio Pininfarina was one of five illustrious former Turin Polytechnic students who received, at the presence of the Italian Premier Giuliano Amato, the Polytechnic's World Culture Award from its Rector, Rodolfo Zich and the Chairman of the Giuseppe Tomaselli Old Polytechnic Students' Association.

Pininfarina, who graduated in 1950, spoke of his work as a Poly lecturer in 1974-77. "The Poly is a institution that has always been dear to my heart and even when I was at Confindustria I always sought to promote any available synergies between the University and the Business Community. I can also say that the culture of the Polytechnic, the education that I received here have played a vital part in my working career."
