

Pininfarina Extra and Saratoga at IDS Exhibition 2005

At the IDS 2005 Exhibition, it has been presented the new line of dental furniture designed by Pininfarina for Saratoga.

Saratoga know-how combined with Pininfarina design created a project where the research focused on innovative systems and shapes were able to satisfy the increasing demand of professionals towards technologies and new systems and solutions.

"Looking at the professional activity within the dental sector, I noticed the needs of combining the aesthetic with safety, comfort and the evident capability of speaking the language of innovation at the service of humanity - this was the inspiration in the pf project with Saratoga" Paolo Pininfarina.
