

Packard Bell EasyNote TR85, the notebook designed by Pininfarina

Turin, April 9, 2009 - Glossy cover, edge to edge seamless widescreen glass enclosure, matt black interior, and great attention to visual and functional details are some of the characteristics of a notebook with great personality and unique design inspired by a cowork with Pininfarina: **EasyNote TR85**, the newborn notebook announced by Packard Bell.

The **EasyNote TR85** represents a superlative fusion of style and design with performance and outstanding features, in perfect harmony with Packard Bell's unique style. Its cutting-edge design, with an elegant silver brand plate on a glossy black cover create an amazing contrast with the matt interior, also embellished by the silver coloured touchpad, curved ramp-shaped speaker and keyboard. The 16:9 ratio of the impressive 15.6" edge-to-edge glass screen, the Dolby® sound ramp speakers create a stunning audio and video experience.

The **EasyNote TR85**'s special distinctive details and smart features are the sleek slot-in optical drive for CD and DVD playback and recording, the webcam curtain that protects your privacy, LED backlit display for sharper and more vivid images, longer battery life and slimmer designs. The multi-gesture touchpad allows easy computing in an intuitive way: surfing, scrolling, zooming and browsing web applications, media albums or productivity software just using one or two fingers. With the new "flick" gesture, you photos, web pages, documents, or media albums may be browsed back-and-forth by sliding two fingers horizontally. The red touch capacitive hotkeys at your fingertips on top of the keyboard include a PowerSave Key, My BackUp Key, Touchpad lock (to activate or deactivate the touchpad), Wi-Fi activation and Sound Control.
